## Get more and save more with a \$50 or \$100 mail-in rebate for the purchase of an ENERGY STAR qualified clothes washer.

When you choose an ENERGY STAR qualified clothes washer, you'll enjoy more than just energy savings and outstanding performance—you can get **\$50 or \$100** back with the attached mail-in rebate from the BGE Smart Energy Savers Program®.

**\$50 Rebate**—Receive a \$50 rebate on an ENERGY STAR qualified clothes washer.

**\$100 Rebate**—Receive a \$100 rebate on a super-efficient ENERGY STAR qualified clothes washer with a Modified Energy Factor (MEF) of 2.2 and above and Water Factor (WF) less than or equal to 4.5. For qualifying clothes washers, visit [BGESmartEnergy.com/ApplianceRebate](http://BGESmartEnergy.com/ApplianceRebate) to view ENERGY STAR's detailed list of clothes washer ratings, and use the "Efficiency" drop-down menu to search for models with a Modified Energy Factor of 2.2 or above and Water Factor less than or equal to 4.5.

## Save now and for years to come.

An ENERGY STAR qualified clothes washer can save you \$386 in energy and water over its lifespan. The average U.S. family washes almost 400 loads of laundry each year.\* Choosing an ENERGY STAR qualified washer can help families cut their related energy costs by more than a third and water costs by more than half. These washers also extract more water during spin cycles to reduce drying time, save more energy, and reduce wear and tear on fabrics.
