a BGE Smart Energy Savers Program<sup>SM</sup>

**We're on it.<sup>SM</sup>**

## Service Provider Application

### INTRODUCTION

BGE is pleased to partner with local Service Providers to promote energy efficiency services to our business customers. Service Providers help raise awareness of our energy efficiency programs and inform customers about the opportunities and incentives available. Participating Service Providers include contractors, architects and engineers (A&E), energy service companies (ESCOs), and other product/Service Providers who have been trained on the Energy Solutions for Business program and have agreed to follow the program rules and processes.

If your organization provides services related to lighting, commercial refrigeration, motors, commercial kitchen equipment, building automation systems, process equipment, or HVAC equipment and systems, BGE offers you an opportunity to be listed as a Service Provider on the BGE Smart Energy Savers Program<sup>SM</sup> web site. As a listed Service Provider, your business will be better positioned to help our mutual customers receive the maximum benefits available through this program. To be considered for the Service Provider listing, attend program training then complete this application and mail it to the address on the back of the application. The BGE team will review all applications. Upon acceptance, your company name and contact information will be posted in the Business Service Providers section of BGESmartEnergy.com and entered into the appropriate directory.

*Please note that a listing as a Service Provider does not constitute endorsement by BGE. Listed companies are independent contractors, and BGE does not guarantee any Service Provider performance.*
